**TO:** Radiation Oncologist

**FROM:** Brian Monzon, MBA, RT(R) (T), Manager  
Radiation Oncology ACR R-O PEER™ Program

**SUBJECT:** Radiation Oncology ACR R-O PEER™ Program for Maintenance of Certification

The American College of Radiology is pleased to offer radiation oncologists the opportunity to fulfill Part IV: Assessment of Performance in Practice for the Maintenance of Certification (MOC) program for the American Board of Radiology (ABR) through the Radiation Oncology Practice Accreditation Program. This Practice Quality Improvement (PQI) program will not require the submission of any additional cases but does require that at least two cases per physician be reviewed during the on-site survey.

Following the survey, a final report and certificate of satisfactory completion of practice assessment will be issued to each participating radiation oncologist. If any recommended action measures are identified, the final report will request additional documentation that demonstrates that such measures have been appropriately addressed.

The application for ACR R-O PEER™ is attached. When your site is applying for accreditation, you may include this application and the appropriate fee with the site's application. ***All applicants participating in ACR R-O PEER™ must submit their application before their scheduled site survey.***

If you would like additional information, please contact the Radiation Oncology ACR R-O PEER™ Program at 1-800-770-0145 x3 or e-mail at [rad-onc-accred@acr.org](mailto:rad-onc-accred@acr.org)
